

CLIENT:  
**San Francisco Public Utility Commission (PUC)**

PROJECT:  
**Waste Water Treatment Plant**

**BUDGET:**  
\$170,187

**PROJECT MANAGER:**  
Robert Mooneyhan

**SCOPE:**  
Torres Construction performed a complete lighting upgrade for the San Francisco Waste Water Enterprise Treatment Plant - a facility covering 7 acres. The scope of this project required changing out 1600 existing fixtures with new T8 energy efficient lighting fixtures - 1450 were retrofit fixtures and 150 were new fixtures installed in the pipe gallery.

**SUMMARY:**

The biggest challenge was coping with size of the physical space and the demand it placed on the teams performing the installations.
